

each fact wrapped in some subjective, protective covering. The fact is true and dependable, but it should not be naked. A memorandum of fact by a Greek is full of such phrases as: "Then the nobleness of the Greek soul was revealed," or "The Greek peasant modestly died . . . to protect his beloved country, but his death was one of the noblest sacrifices to the idea of liberty." Or, if Greeks have to criticize, they do it with oratory also, reviling passionately, as when a mother scolds a loved one with fury but not with cold and calculating anger.

The covering of the naked fact is essential to the integrity—the absence of all molestation—of the *philotimo*. The inner core of the Greek must never be exposed; and *entropé*, the Greek word for shame, modesty, decency, propriety, self-consciousness, embarrassment, means: "turning inward." This is a concept both positive and negative: you have done something shameful only because you have failed in the positive aspect, in modesty and decency. Out of *entropé*, a Greek avoids saying things and doing things which would reflect on the *philotimo* of himself, his family, his country. For example, the self-made man in Greece does not boast of his rags-to-riches progress. This would expose the poverty of his village, the inability of his family to help him, the fact that his uncle or his godfather could not or did not do his duty by him; it would expose much that should remain decently covered, and would further prove him to be lacking in *philotimo*. [521]

The Greek *philotimo* should not be confused either with the notion of face or with that of pride. Pride for the Greeks carries with it the connotation of arrogance: "the proud bird is caught by the nose". A Greek mother is not proud of her son: she is honoured by him; the *philotimo* is enhanced through honour, not pride. There is something of the notion of face, in that it is insupportable to have one's failures and needs known. But there is more than this; what is really bad is that you yourself should expose your failure or yourself. And you have no *philotimo* if you avoid going to fight for your country, whether anyone knows this or not. [619]

The essence of *philotimo* is inviolability and freedom. The first means that a Greek is very "touchy". In a very popular work of the thirties, which gives a humorous report of the cases in the Court of Petty Offences, a large proportion of the cases arise out of this molestation of the *philotimo*. The reaction is immediate, either in scathing invective, such as name-calling, or as physical attack. Offence against one's *philotimo* brings retaliation, not self-reproach. There are suicides in Athens for financial reasons, or for love, but none are reported as a result of a molested *philotimo*. [762]

Freedom is the positive aspect of this. Greeks say: "To be a Greek means to be free," and "Nothing is beautiful unless you are free, not even the flowers in the spring." It gave the Greeks a great sense of
